

**Expert meeting on Neurology and Psychiatry:
“Priorities for the next decade in sleep research and medicine”
Verbania, 19-21.06.2014**

Guideline for workshop report

1. Each workshop has one or 2 coordinators and few members.
2. Each scientist may participate to more than one workshop.
3. Each work's group has to prepare a short manuscript as outcome of the discussion.

Point to summarize in the manuscript

- Past:
 - Identify the 5 key papers published in the past 5 years (since 2008 included) on the topic
 - Relevant achievements in diagnosis, physio-pathogenesis and management
- Present:
 - Ongoing most relevant studies and discussion
 - Hot topics: in press or very recent relevant papers
 - Topic addressed in the past year in international congresses (symposium, lectures)
- Future:
 - Urgent questions to address
 - Long term questions to address
 - Research agenda
 - Expected results

Manuscript preparation

- Maximum 400 words (double lines spaced)
- Maximum 10 references. The 5 favorite papers has to be highlighted with a “*” in the bibliography
- One picture or one table allowed

All contributions will be integrated in a single manuscript, which will be submitted to "Lancet Neurology" as a review paper.
